About EuMBC

Created in 2001, EuMBC (former ETHIC) is a Sector Group of EuPC and an international association of companies who have manufacturing operations in the EU, EEA and Turkey.

EuMBC represents and defends the interests of the European compounds and masterbatch producers vis-à-vis the European institutions and other professional organisations. It is particularly active in all fields related to the plastic industry (e.g. REACH, Food Contact or new technologies).

Mission

- **Represent the European Masterbatchers and Compounders** and stimulate their role across the entire plastics value chain
- **Monitor and be involved in EU regulatory developments and compliance** and to provide information and expertise about our business
- **Protect the interests of our industry** from other potentially adverse business impacts such as trade issues
- **Increase the visibility of our role** as Masterbatchers and Compounders vis-à-vis other European associations and the European institutions

You would like to apply for membership or receive more information about EuMBC?

Membership Benefits

- **Participate in the EuMBC Substance Monitoring Group:** technical, regulatory & monitoring activities for the association members
- **Support on REACH**
including general information and guidance, specific substance monitoring, REACH tools for risk assessment, safety data sheets
- **Participation in FREP (Food Contact Regulatory Expert Panel)**
- **Active in the development of the PESTOOL (Plastics Exposure Scenario Tool)**
- **Free access to the annual EuMBC Conference and the EuMBC General Assembly**
- **Regular information & updates on important topics concerning the industry**
- **Cooperation & exchange within EuPC (European Plastics Converters Association)**
- **Participate in market sectors activities alongside the plastic converters and better understand their views**
(Market sectors include Packaging, Building & Construction, Automotive, Electrical & Electronic, Medical & Pharma)
- **Participate in horizontal activities and issues**
on e.g. energy policy, labour cost, trade issues, HSE & Raw Materials Committees
